TICS AMALGAMATED SCORECARD RANK - SOCIETE GENERALE:

Source: Tempo Structured Products | Thomson Reuters | FT Banker Database | Issuers, 01 February 2024.

This document is intended only to be presented to, and used by, FCA authorised persons, including financial advisory firms and wealth managers ("Professional Advisers"). It is not suitable for, and must not be distributed to, clients or potential clients of any prospective investor is given or implied in this document. The information in this document does not take account of the investment objectives, particular needs or financial situation of any client or potential client. It is important that Professional Advisers understand that 'TICS' (the Tempo Issuer and Counterparty Scorecards) is not independent research. We do not provide any warranty regarding the data, methodology, scores or rankings: and we expressly exclude any liability for any judgement or interpretation based upon or influenced by TICS and what TICS is and what TICS is not.

This document is for information only and is not intended as an offer, or recommendation or solicitation of an offer to buy or sell any investment service or investment research, investment research or investment research resear

There are risks associated with an investment in any structured products are not suitable for everyone. In addition to understanding the USPs of structured products present counterparty risk - the potential returns of a structured product and the repayment of money invested in a structured product product usually depend on the financial stability of the issuer and counterparty; the level of return a structured product generates may be capped and / or less than the level of return generated by direct investment in the stock market or via active or passive funds; the terms of structured products can predefine what can be expected at maturity and at certain other dates, such as potential 'kick-out' and early maturity dates - but these terms do not apply during the investment term; the value of structured products during normal market conditions, this is not guaranteed; past performance is not a reliable indicator of or guide to future performance and should not be relied upon, particularly in isolation; the value of investments and the income from them can go down as well as up; capital is at risk and investors could lose some or all of their capital. The 'important risks' section of our website highlights the key and other risks of structured products: www.tempo-sp.com/home/important-risks. Professional Advisers should not invest in, or advise their clients to invest in, any investment product unless they and their clients understand them, in particular the relevant risks.

Tempo Structured Products is a trading name of Tempo Structured Products is part of the Alpha Real Capital family of companies ('Alpha'), which benefit from materially common ultimate beneficial ownership.
