

# Key Information Document

## RBC Capital Markets

### Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### Product

Product name	Structured Deposit Linked to an Index
Product identifiers	UKX-DIGX-12MAY28
PRIIP manufacturer	RBC Europe Limited ( <a href="http://www.rbcnotes.co.uk/">http://www.rbcnotes.co.uk/</a> ). The product is a structured deposit and the deposit taker is Royal Bank of Canada. Call +44 (0) 20 7029 0555 for more information.
Competent authority of the PRIIP manufacturer	Authorised by the U.K. Prudential Regulation Authority and regulated by the U.K. Financial Conduct Authority and U.K. Prudential Regulation Authority
Date and time of production	16 March 2023 18:48 London local time

You are about to purchase a product that is not simple and may be difficult to understand.

## 1. What is this product?

### Type

English law governed structured deposit

### Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The product is designed to provide a return in the form of (1) regular fixed coupon payments and (2) a cash payment on the **maturity date**. The product has a fixed term and will terminate on the **maturity date**. The payment at maturity will not exceed GBP 1,005 per **individual investor deposit** of GBP 1,000.

**Coupon:** On each **coupon payment date** you will receive a coupon payment of GBP 3.42 per **individual investor deposit** of GBP 1,000. The coupon payments are not linked to the performance of the **underlying**. The relevant dates are shown in the table(s) below.

Coupon payment dates	
	26 June 2023
	26 July 2023
	28 August 2023
	26 September 2023

Maturity date

**Termination on the maturity date:** On termination of the product on the **maturity date** you will receive per **individual investor deposit** of GBP 1,000:

1. if the **final reference level** is at or above the **initial reference level**, a cash payment equal to GBP 1,005; or
2. if the **final reference level** is below the **initial reference level**, a cash payment equal to GBP 1,000.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive. The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the deposit taker may terminate early. These events are specified in the product terms and principally relate to the underlying, the product, the deposit taker, the deposit plan manager and the depositor intermediary. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested. Early withdrawal charges may apply.

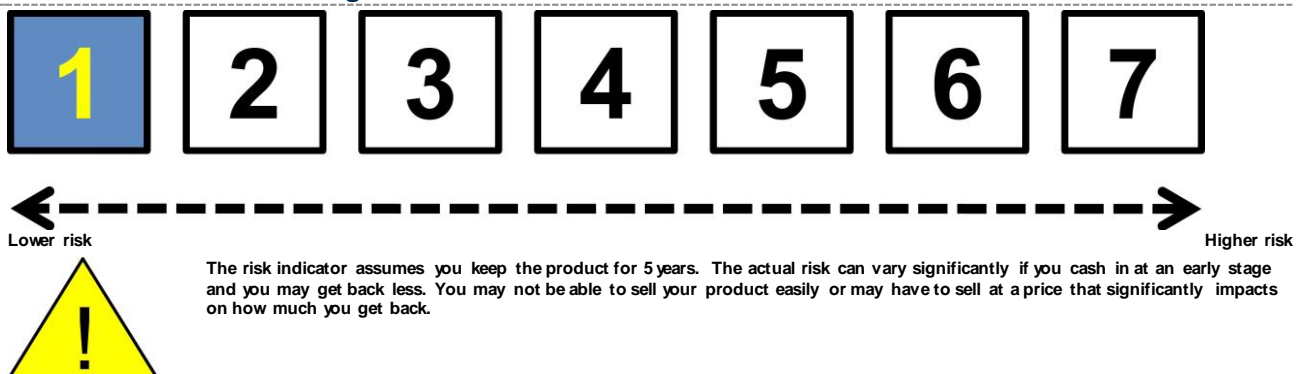

<b>Underlying</b>	FTSE 100 IDX (Price return index) (ISIN: GB0001383545; Bloomberg: UKX Index; RIC::FTSE)	<b>Reference level</b>	The closing level of the <b>underlying</b> as per the <b>reference source</b>
<b>Underlying market</b>	Equity	<b>Reference source</b>	FTSE International Ltd
<b>Individual investor deposit</b>	The deposit amount in GBP agreed with an investor. The deposit amount is, at any time, the amount standing to the credit of your deposit account at such time, and excludes any amount already withdrawn or transferred.	<b>Final reference level</b>	The <b>reference level</b> on the <b>final valuation date</b>
<b>Product currency</b>	Pound Sterling (GBP)	<b>Initial valuation date</b>	12 May 2023
<b>Underlying currency</b>	GBP	<b>Final valuation date</b>	12 May 2028
<b>Deposit payment date/issue</b>	26 May 2023	<b>Maturity date / term</b>	26 May 2028
<b>Initial reference level</b>	The <b>reference level</b> on the <b>initial valuation date</b>		

**Intended retail investor** The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have basic knowledge and/or experience of investing in similar products which provide a similar market exposure and have the ability to understand the product and its possible risks and rewards, either independently or through professional advice;
2. they seek income and/or full principal protection, subject to the deposit taker's ability to pay, expect the movement in the underlying to perform in a way that generates a favourable return and have an investment horizon of the recommended holding period specified below;
3. they accept the risk that the deposit taker could fail to pay or perform its obligations under the product but otherwise they are not able to bear any loss of their investment, subject to the availability of any compensation under the UK Financial Services Compensation Scheme; and
4. they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

## 2. What are the risks and what could I get in return?

**Risk indicator**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Be aware of currency risk:** If the currency of your account is different from the currency of the product, you will be exposed to the risk of suffering a loss as a result of the conversion on the currency of the product into the account currency. This risk is not considered in the indicator shown above.

You are entitled to receive back at least 100.00% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the deposit taker.

If we are not able to pay you what is owed, you could lose your entire investment, subject to the availability of compensation under the UK Financial Services Compensation Scheme.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Investment performance information

Main factors likely to affect future returns on the product

Your return on the product at the end of the recommended holding period will principally be affected by (1) the price at which you purchase the product, (2) the performance of the **underlying** over the recommended holding period and (3) the ability of the deposit taker to make payments that become due on the product. The value of the product before the **maturity date** will also be affected by general economic and market conditions, the volatility of the **underlying** (which is a measure of the extent of movement in the level of the **underlying**), interest rates, the remaining time to maturity and the ability of the deposit taker to make payments.

What could affect my return positively?

• An increase in the level of the **underlying**

What could affect my return negatively?

• The deposit taker's inability to make payments on the product when they fall due

The factors listed above provide general guidance on how changes in the level of the **underlying** may affect your return if you purchase the product at inception and hold it to the end of the recommended holding period. If you purchase or sell the product after inception, your return on the product will also be affected by the purchase or sale price and the level of the **underlying** at the time of sale or, in the case of a purchase, at and following the time of purchase. The precise impact will depend on the timing and effects of these changes, and the above list should not be viewed as guaranteeing a particular outcome. See "1. What is this product?" for a discussion of how the payments you will receive during the life of the product and the payment you will receive at the end of the recommended holding period will be calculated.

In severely adverse market conditions, if you hold the product to the end of the recommended holding period, you are entitled to receive back 100.00% of your investment. Any amount over this, and any additional return, depends on market conditions and is uncertain. If you sell the product in severely adverse market conditions prior to the recommended holding period, your return may be lower than what you would have received if you held the product to the end of the recommended holding period and may be as low as zero. See "5. How long should I hold it and can I take money out early?" below for additional information.

3. What happens if the deposit taker is unable to pay out?

You are exposed to the risk that the deposit taker might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is a structured deposit and as such is covered by the UK Financial Services Compensation Scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000. The figures are estimates and may change in the future.

Costs over time

Investment: GBP 10,000			
Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at the end of the recommended holding period
Total costs	GBP 500.00	GBP 500.00	GBP 400.00
Impact on return (RIY) per year	5.42%	1.74%	0.85%

The "Total costs" in the table above represents in monetary terms the aggregated amount of costs associated with the investment, assuming the product performs in line with the moderate performance scenario. The "Impact on return" represents how much the expected costs of the product would affect your return in such scenario. Disregarding the impact on your return in that scenario, the estimated entry and exit costs as a percentage of the **individual investor deposit** are estimated to be 5.00% if you cash in after 1 year, 5.00% if you cash in after 3 years and 4.00% if you cash in at the end of the recommended holding period. The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.			
One-off costs	Entry costs	0.85%	The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product as a percentage of the **individual investor deposit** is estimated to be as follows: entry costs: 4.00% and exit costs: 0.00%.

5. How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 26 May 2028 (maturity).

The product does not guarantee the possibility to disinvest other than where the depositor makes a request to withdraw all or part of the deposit and the deposit taker agrees to such withdrawal (which it is not obliged to do in normal circumstances). Such withdrawal may be subject to early withdrawal fees. By withdrawing from the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity. In volatile or unusual market conditions, or in the event of technical faults/disruptions, the investment in and/or withdrawal from the product can be temporarily hindered and/or suspended and may not be possible at all.

Exchange listing	Not applicable	Price quotation	Percentage
Smallest tradable unit	GBP 1,000		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on the product, or making the product available, can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: 100 Bishopsgate, London, EC2N 4AA by email to: KID\_Complaints@rbccm.com or at the following website: <https://www.rbcpriips.eu>.

7. Other relevant information

Any additional documentation in relation to the product, in particular, the Structured Deposit Master Terms dated 10 January 2022 and the Deposit Terms are available free of charge from 100 Bishopsgate, London, EC2N 4AA.

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The product is not in any way sponsored, sold or promoted by any relevant stock market, relevant index, related exchange or index sponsor. Further information in respect of the index is available from the index administrator.
